SPRINGFIELD-GREENE COUNTY ROAD TO RECOVERY PLAN (REVISED 6.11.2020)

INTRODUCTION

The Road to Recovery Plan is a guide to the Springfield-Greene County area's next phases in reopening the local economy. The individual components and phases of the plan are subject to change based on local and national COVID-19 data as well as by measures tracked on the Springfield-Greene County Health Department's [COVID-19 Recovery Dashboard](#).

The goal of recovery is to reopen the community as quickly and safely as possible, while monitoring the spread of disease and taking action to keep the spread of disease to an acceptable level.

The Road to Recovery Plan is a draft document that serves as a framework for Springfield Mayor Ken McClure's future reopening orders. The plan allows community members and organizations to have a firmer understanding of what recovery looks like, when the spread of the disease is controlled and healthcare, public health and testing capabilities are strong. Within this framework, community leaders will make decisions approximately every three weeks on whether the community is ready and prepared to take the step into the next phase or if it is prudent to remain in the current phase. Phases are fluid and based on dashboard indicators and state orders. To a large extent, the virus will dictate the timeline of recovery.

This dashboard covers five areas, including:

- **DETAILED CASE INFORMATION**, including total and daily cases based on a person's onset of symptoms and active, deceased and resolved cases.
- **HOSPITAL CAPABILITY**, which is based on hospital staffing, supplies and space available to respond to COVID-19.
- **PUBLIC HEALTH CAPABILITY**, which is based on the capability to conduct epidemiological interviews and contact tracing, and risk pertaining to unmitigated community exposure for COVID-19.
- **TESTING CAPABILITY**, which measures the estimated community testing capability for COVID-19. The index is based on the available testing and result turnaround time.
- **REGIONAL DATA INFORMATION**, which measures the estimated public health capability and testing capability for surrounding counties.

The following plan is broken down by various sectors of the community presented by the progress phases (rows) and various circumstances within each sector (column). The rows highlighted in yellow have taken place or are currently in effect. The remaining rows are not in effect, are not final, and are subject to change. Following the breakdown of each sector you will find charts detailing each phase of the Road to Recovery Plan.

SPRINGFIELD-GREENE COUNTY ROAD TO RECOVERY PLAN (REVISED 6.11.2020)

WHAT YOU NEED TO KNOW NOW

- **AVOID TRAVEL:** Avoid travel, especially to areas that are COVID-19 “hot spots”. If you choose to travel, we strongly recommend that you self-quarantine for 14 days when you return to Greene County.
- **SYMPTOMS:** Symptoms to watch for are **fever, cough, shortness of breath, chills, muscle pain, headache, sore throat and new loss of taste or smell**. If symptoms do develop, seek medical attention. If you are sick, you can use virtual care options to seek medical treatment without exposing others to illness. Links are available at health.springfieldmo.gov/coronavirus. If you do wish to visit in-person, contact your health care provider before you go to tell them about your symptoms. For more information about COVID-19, visit our website at health.springfieldmo.gov/coronavirus, email coronavirus@springfieldmo.gov, or call 417-874-1211.
- **EXPOSURE:** If you have been exposed to a known positive case of COVID-19, you will be contacted by the Springfield-Greene County Health Department and asked to self-quarantine. If you have been potentially exposed in a public place, you should monitor yourself for symptoms for 14 days after your exposure. Contact your healthcare provider if you experience symptoms.
- **TESTING:** Testing for COVID-19 is available in Greene County. If you are experiencing symptoms, contact your healthcare provider for testing.
- **VACCINES/CURES:** While there are several organizations working toward a vaccine and a cure for COVID-19, none of these are currently approved for use in humans.

CLEANERS TO USE AS DISINFECTANTS

SOAP & WATER

BLEACH

HYDROGEN PEROXIDE

ISOPROPYL ALCOHOL

VISIT THE EPA'S WEBSITE FOR A
FULL LIST OF CLEANING AGENTS
TESTED FOR USE AGAINST
THE NOVEL CORONAVIRUS.

PREVENTION

There is currently no vaccine for COVID-19. Protect yourself and others with these tips:

- **Wash your hands often.**
 - Especially after going to the bathroom, before eating, and after blowing your nose, coughing, or sneezing
 - Use soap and water for at least 20 seconds
 - If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol.
 - Always wash hands with soap and water if hands are visibly dirty.
- **Avoid close contact with individuals who are sick**
- **Avoid touching your eyes, nose, and mouth**

IF YOU ARE SICK

- Practice good respiratory hygiene (cover your cough or sneeze with a tissue, then throw the tissue in the trash)
- Wash hands often
- Clean and disinfect frequently touched surfaces or objects often using a regular household cleaning spray or wipe
